

**PRICELIST**  
**General hospital**

<b>Kind of research</b>	<b>Price, ₺</b>
Intramuscular injection	76
Drip intravenous infusion	377
Intravenous injection	166
Cleansing nourishing enema	278
Blood pressure measurement	97
Consultation of the cardiologist of the hospital (primary reception)	569
Taking blood from a vein for examination	114
Consultation of the cardiologist of the hospital (re-appointment)	154
Consultation of a transfusiologist	422
Consultation of the cardiovascular surgeon in the hospital	571
Doctor's consultation on endovascular diagnosis and treatment in the hospital	651
Decoding, description and interpretation of electrocardiographic data (remote decoding)	501
<b>The cost of one days in the offices</b>	
Day hospital	332
Cardiology department #1	520
Cardiology department #2	520
x-ray surgical Department	1815
<b>Consultations of doctors</b>	
Doctor-neurologist	418
The endocrinologist	487
The otolaryngologist	312
Cardiovascular surgeon	651
Clinical pharmacologist	402
Departure of the cardiologist to the house transport of the patient (80 min.)	1054
ECG at home	894
Physiotherapist	303
<b>Resuscitation</b>	
Electropulse therapy	4160
<b>Polyclinic</b>	
Consultation of a cardiologist	536
Complex reception of the cardiologist	814
Repeated appointment of a cardiologist	268
<b>Department of functional and ultrasonic diagnostics</b>	
Electrocardiography (ECG)	426
ECG at rest in the wards of the hospital	528
Daily ECG monitor on the device cardiotechnika	1403
ECG with Bicycle ergometry	1223
Blood pressure and heart rate monitoring	1011
Мониторирование ЭКГ по Холтеру	1824
Stress test on a treadmill	1494
Echocardiography with Doppler	1503
Transesophageal echocardiography	4051
Ultrasound examination of the liver	603
Ultrasound examination of the Pancreas	601
Ultrasound examination of the Spleen	600
Ultrasound examination of the kidneys	602
Ultrasound examination of abdominal organs	1227
Ultrasound examination of the thyroid gland	512
Study of the blood vessels of the thyroid gland	851
Investigation of vessels of the brachiocephalic region with color Doppler mapping	1506
Examination of lower limb arteries	1465
Examination of upper limb arteries	1442
Examination of deep veins of the lower extremities with functional tests	1549
Examination of the deep veins of the upper extremities	1445
Investigation of renal vessels	1057
<b>Department of hyperbaric oxygenation</b>	
The session of the chamber	453
Intravenous laser irradiation of blood	448
Consultation of anesthesiologist-resuscitator	604
Ultrafiltration of blood	9724
Magnetic laser therapy	111
Bloodletting	1217
Gravitational plasmapheresis	3985
Plasmapheresis gravitational discrete	2974
Ultraviolet irradiation of blood	596
Membrane plasmapheresis	4268
Cytopheresis	3229
Central vein catheterization	1905
Consultation of a cardiologist	543
Detoxification infusion therapy	2819

<b>Физиотерапевтическое отделение</b>	
Low frequency magnetic therapy	127
Ultraviolet irradiation	127
Ultrahigh-frequency therapy	127
Darsonvalization local	103
Diadynamic	198
Electrosleep	247
Galvanization	127
Phonophoresis	198
Inhalations	74
Santimetrovuyu therapy	103
Ultrasonic therapy	198
Extremely high frequency therapy	154
Inductothermy	169
<b>Diodynamophoresis:</b>	180
<b>novocaine solution 0,5%</b>	181
<b>aminophylline 2%</b>	180
<b>Medicinal electrophoresis</b>	<b>159</b>
<b>novocaine solution</b>	154
<b>aminophylline</b>	163
<b>magnesia</b>	160
<b>potassium bromine</b>	156
<b>potassium iodine</b>	159
Franklinization	152
Nebulizer inhalations with aerosols of medicines	255
Magnetic therapy cavity	251
Magnetic therapy percutaneous	186
Head massage	146
Cervical-collar massage	216
Thoracic back massage	257
Massage lumbosacral region	203
Massage of the upper limb, shoulder and shoulder blades	194
Massage the shoulder joint	146
Massage of the lower limb	170
Massage the knee joint	146
Massage of the ankle joint	146
Massage of foot and lower leg	146
<b>X-ray Department</b>	
Heavy lung p-graphy (1pr)	308
Heavy lung p-graphy (2 PR)	404
Radiography of the cervical spine	461
Radiography of the cervical spine with functional tests	507
Radiography of the thoracic spine	507
Radiography of the lumbar sacral region with functional tests	507
Radiography of the lumbar sacral region	408
Radiography of ribs	407
Lung tomography (1pr.)	705
Additional shot in special projections	315
Pictures on the tent apparatus when combined	653
Radiography of pelvic bones	455
Skull x-ray	357
Sighting radiography of the Turkish saddle	605
Radiography of lungs 1st Ave.	345
Radiography in 2 projections	556
Radiography of the sternum	705
Overview radiography of the abdominal cavity	408
Radiography of the sinus appendages	292
Radiography of both hip joints	467
Radiography of the joint in two projections	467
Radiography of the hip joint	308
X-rays of elbow joints	357
Radiography of the shoulder joints	357
Radiography of the joint in one projection	357
<b>X-ray surgery Department</b>	
Transesophageal echocardiography	808
Transesophageal electrophysiological study - study of the coronary reserve	1219
Transesophageal electrophysiological study - study of SSSU function	1219
Transesophageal electrophysiological examination-investigation of the presence of	1218
Transesophageal electrophysiological examination - control of the effectiveness of	1579
Daily monitoring on the Astrocard 12-channel apparatus	1804
Programming EX.	1014
Programming EX import	1113
Daily monitoring on the Astrocard 3-channel apparatus	1457
Daily monitoring with blood pressure measurement	1727
Coronarography	33033
Angiography of vessels of the abdominal cavity	30258
Transluminal balloon angioplasty and coronary artery stenting (one drug-coated stent)	98995
Transluminal balloon angioplasty and coronary artery stenting (two drug-coated stents)	159171
Transluminal balloon angioplasty and coronary artery stenting (three drug-coated stents)	220645

**Laboratory**

Study of glucose levels in urine	41
Urine test for Bence-Jones protein	268
Urine analysis according to Nechyporenko	128
Study of the physical properties of spinal fluid	29
Study of the level of protein in the spinal fluid	46
Microscopic examination of spinal fluid	205
Microscopic examination of peritoneal ascitic fluid (exudates and transudates)	245
The study of the physical properties of sputum	143
Microscopic examination of native and stained preparation of sputum	143
Fecal occult blood test	73
Fecal examination for helminths	275
Taking blood from a finger for 5 examinations	58
Blood test for hemoglobin, white blood cells, ESR (blood sampling)	136
Study of the level of reticulocytes in the blood	130
Study of platelet levels in the blood	117
Study of erythrocyte sedimentation rate	161
Microscopic examination of a "thick drop" of blood smear on malarial plasmodia (Plasmodium)	155
Determination of thymol sample	79
Determination of the level of chlorides in the blood	294
Study of serum iron levels	151
Study of amylase levels in the blood	157
Study of creatinine kinase levels in the blood (CKD)	523
Study of the level of lactate dehydrogenase in the blood (LDH)	523
Study of the level (concentration) of creatine kinase isoenzymes in the blood (MV)	606
Study of uric acid levels in the blood	238
Determination of hematocrit (the generation of plasma)	97
Study of the level of fibrinogen in the blood	223
Blood test for the duration of bleeding	76
Determination of ethanol plasma test	145
Rapid diagnosis of syphilis (+plasma preparation)	167
Determination of the main blood groups (A.V. O)	145
Determination of RH-affiliation	153
Study of the level of myoglobin in the blood	158
APTT (+ the generation of plasma)	200
Plasma recalcification time activated study	217
General (clinical ) blood test	339
Coagulogram (approximate study of the hemostatic system)	987
Rapid study of troponin levels in the blood	839
D-dimeter, test strip	1160
Determination of the level of N-terminal brain natriuretic leptide (NTproBNP) in the blood	1937
Lipid profile direct method	614
Research on microalbuminuria	282
High-sensitivity CRP	327
Determination of C-reactive protein concentration in blood serum	327
The study of the physical properties of the peritoneal(astiticescoy) Jew-ti	22
Study of the phenomenon of "lupus erythematosus cells"	651
Volume and density of urine	78
Determination of protein in urine	46
Study of low-density lipoprotein levels	441
Study of urea levels in the blood	443
Study of creatinine levels in the blood	478
Study of blood glucose levels	200
Study of high-density lipoprotein levels	314
Study of the level of total bilirubin in the blood. Study of the level of free bilirubin in the blood	603
Study of the level of total protein in the blood	94
Study of cholesterol levels in the blood	128
Study of the level of aspartate transaminase in the blood	136
Study of alanine-transaminase levels in the blood	135
Study of the level of alkaline phosphatase in the blood (schf)	213
Study of gamma-glutamyltransferase level	201
Determination of prothrombin (thromboplastin) ratio in blood or plasma (automatic)	231
The study of rheumatoid factors in the blood	115
Rheum tests " C-reactive protein"	147
Determination of Antistreptolysin-O in blood serum	103
Study of total magnesium level in blood serum	249
Urine analysis common with sediment microscopy	213
Definition of an international normalized relationship (INR)	231
Study of serum thyrotropin	184
Study of free thyroxine (T4) level in blood serum	197
Determination of total triiodothyronine (T3) level in blood	182

Determination of the level of antibodies to thyroperoxidase in the blood	200
Determination of level of antibodies to thyroglobulin serum	197
Study of platelet aggregation with arachidonic acid (ASP-Test)	763
Study of the level of protein in the pleural fluid	46
Study of potassium levels in the blood	310
Study of the level of sodium in the blood	310
Microscopic examination of native and colored smears of pleural fluid	231
Study of physical properties of peritoneal (ascitic) fluid	24
Study of the level of ionized calcium in the blood	190
Determination of homocysteine levels	1329
Study of albumin in the blood	222
Determination of alpha-amylase in urine	151
Study of platelet aggregation with thrombin (TRAP-test)	776
Study of platelet aggregation. Stimulated ADF	760
Study of platelet aggregation. Stimulated by collagen (COL-test)	760
Determination of apolipoprotein level APO A1	163
Determination of apolipoprotein B levels in the blood	145
Determination of lipoprotein (a)	462
Determination of glycosylated hemoglobin	2364

#### Operations

Catheter transvenous radiofrequency modification, ablation of the atrioventricular junction in tachy-forms of atrial flicker-flutter	29274
Catheter transvenous radiofrequency ablation of atrial flutter zones of the first type in the area of the right atrial isthmus	64203
Permanent endocardial single-chamber ventricular electrocardiostimulation (EX) in VVI (R) mode)	25726
Endocardial electrophysiological examination	34922
Catheter transvascular radiofrequency injection DPP	122878
Permanent two-chamber cardiac physiological THERAPY-DDD (R) mode)	36551
Removing a non-functioning EX system	32558
Removal of two-chamber EX (bed bedsore EX)	12088
Primary endoelectrocardiostimulation in VVI and AAI mode using expensive contrast agents	38098
Replacing EX	14943
